

Pro Team "Calcutta" Registration instructions:

Pro team Captain (1 person) will register as a normal entry, and will add the Pro Team "Calcutta" addon in order to register the pro team and pay the boat entry fee:

The rest of the pro team (up to four additional people) will select a normal registration – all members including the captain, must check the "Pro Registration" check box in the questionnaire on checkout, and will fill in the Pro Team/Boat name – it's important that all members use the same Pro Team/Boat name:

Pro Boat Series - "Boat Calcutta" Weigh-In Procedure:

ALL members of the pro team will turn in their stringer to be weighed like any other entrant.

The scoring desk will generate the "Best Stringer" for the boat by looking at all entrants' stringers and picking the best fish per category to fill the slots for the boat.

All Pro entrants will be eligible for individual largest fish categories, but will not be eligible for the individual aggregate total awards.

All Pro Boat stringers will be compared to find the pro series winner based on the aggregate point system laid out in the tournament rules.
